SINGLE FAMILY DWELLING (OTHER THAN MANUFACTURED OR INDUSTRIALIZED HOUSING)

The following is a check list. You must have a "checkmark" in all the sections listed below prior to

Please read all of the following information.

____ Width of stairs (36" minimum)

_ Location and size of basement emergency escape opening.

_ Wall bracing detail (material, length and fastening).

Completed building permit application.

submitting your application. "Affidavit of Exemption" (See attached form) If you are hiring a contractor to construct your dwelling, and they have workers' compensation, have the contractor or their insurance carrier provide us with a "Certificate of Insurance" showing proof of such. If the homeowner or a contractor without workers' compensation is constructing the dwelling, the attached form must be completed and notarized. Sewer permit if applicable. _____ Septic permit if applicable. A site plan showing the outside dimensions of the proposed dwelling, including distances in feet to the front, sides and rear property lines. Two (2) sets of complete construction documents that **show in detail** code compliance for all of the work proposed to include **but not limited to** the following information: Home buyer must be given the option to have an automatic fire sprinkler system installed. If buyer chooses not to install sprinklers a detail of the basement floor ceiling assembly must be submitted. (first floor joist size, species and grade of wood) Floor plan showing sizes of all rooms. __ Footing detail including depth below frost line, thickness, width, and rebar. ____ Type of foundation, showing type of masonry, waterproofing and anchorage of home to foundation. Roof rafter size – species and grade of wood. Rafter spacing (16" on center, 24" on center, etc). ____ Thickness and type of roof sheathing. ___ Ceiling joist size and spacing. ____ Floor joist size and spacing. ____ Wall sections showing top and bottom plates and headers. Location and size of all beams. ____ Sizes of all doors. Window type – including sizes and the net clear opening dimensions of all sleeping room windows (emergency egress). ___ Smoke alarms and carbon monoxide alarms - number and placement. Insulation – U - Values for windows, R – Values for exterior walls, attic and foundation. ____ Heating Plans ____ Plumbing Plans ____ Electrical Plans Stairs (riser height maximum 8 1/4" tread depth minimum 9") ____ Stairs – handrail (height from nose of thread min 34" max 38") Guardrail (34" minimum measured vertically from nose of thread)

MDIA will review plans submitted to determine code compliance. If the minimum submittal requirements are not met, we will ask the applicant to supply additional information. If the minimum requirements are met, the plans will be stamped "approved". A building permit will be issued and the applicant will be notified of the inspection fees and when they can pick-up the permit at the Municipal Building. All fees shall be paid prior to the issuance of the permit. Then use the inspection procedures provided to have all the required inspections performed.

INSPECTION PROCEDURES SINGLE FAMILY DWELLING

- Building permit must be posted on the site of the work and clearly visible from the road until completion of the project.
- Your approved plans must be available at time of the inspection. These are the plans that
 were submitted with your application and were marked "Approved" by the building inspection
 agency.
- DO NOT schedule an inspection if the work is not ready!!!!
- When scheduling an inspection, you must supply your permit number to the inspector.

confirmation of your call and our system will send you the responses from the utilities on the morning of your scheduled excavation date via fax or email You will be given a 10 digit serial number as

What do we do?

We are the "Call before you dig!" company for all of Pennsylvania. If you plan to disturb the earth with powered equipment, you are required by Pennsylvania law to notify the underground utility companies of your intent to do so. Notification occurs by calling 8-1-1 or 1-800-242-1776, 24 hours of the day, every day of the year. Notification can also be done on our website at www.paonecall.org.

We will then notify the utility companies nearby of your intent to dig. The utility companies are responsible to mark where their underground lines are located with colored flags, paint or chalk.

Please Note:

- PA One Call does not mark utility lines.
- or no company may not mark the service lines you own.
- If you need your sewer drain cleared be sure to check www.paonecall.org/crossbore for Call Before You Clear information or call 811 for more information.

Why should you call?

Safe digging is no accident! If you are installing a fence or deck, or digging for a mailbox post, patio or other excavation project, it is important to Know What's Below. Dial 8-1-1 or 1-800-242-1776 before you dig. The utility companies do not want an accident, either. The best way to learn where underground utility lines are located is to call before you dig.

For more information, visit www.pa811.org

Homeowner Quick Tips

- One easy phone call to 8-1-1 three to ten business days before digging begins helps keep your neighborhood safe.
- Call on Monday or Tuesday if you plan to dig on Saturday or Sunday.
- The utility companies will mark where their underground lines are located with colored paint, flags or chalk.
- Do not remove the flags if you see them in your yard.
- Our service is no cost to homeowners.
- Did you hire someone to install your fence, deck or new patio? Ask to see the PA One Call serial number before allowing them to dig on your property.

The Excavator's Responsibility

- Dial 8-1-1 or 1-800-242-1776.
- Do not allow anyone to excavate on your property without calling.
 - Always look for the markings on the ground before your dig date.

If you do not see markings, do not

- allow anyone to dig. Wait for the lines to be marked by the utility. Whoever places the call will
 - Whoever places the call will receive an email or fax with a list of facility owners who have marked or have not marked.
 Pay attention to this message.
- Respect the markings by not removing flags or disturbing the actual markings.
- Exercise care around the marked lines by hand digging.
- When the project is complete, the excavator should remove the flags or marks from the ground or pavement.
- Report mishaps by dialing 8-1-1.
 Report emergencies by
 dialing 9-1-1.
